

Bodyline

*“Sri Lanka's FIRST
CarbonConscious®
Apparel Manufacturer”*

Bodyline (Pvt) Ltd

The Bodyline Group independently calculated and verified its Greenhouse Gas emissions over a continuous period of 3 years with CCC and successfully implemented a “Green Team” charged with a mission of managing and mitigating this impact. This comprehensive GHG Assessment of the four factories of Bodyline (Pvt) Ltd was carried out in accordance with the WBSCD/WRI GHG Protocol. The assessment took into account data on fuel consumption, electricity consumption and material consumption as well as other direct emissions released from sources that are owned or controlled by the company, indirect emissions associated from purchased electricity and indirect sources including hired business travel, employee commuting, and third-party deliveries.

Subsequently, Bodyline (Pvt) Ltd was certified as the country's FIRST CarbonConscious® Apparel Manufacturer.
