and ONLY Tyre  
Manufacturing Group  
to obtain ISO 14064-1  
for Selected  
Facilities”*

## Camso Loadstar

The Carbon Consulting Company conducted Organisational GHG Assessments for **11 facilities** of Camso Loadstar (Pvt) Ltd to assess the GHG emissions arising from its operations. The GHG Assessments were based on the WBCSD/WRI GHG Protocol and ISO 14064-1 Standard, which are also compliant with the Carbon Disclosure Project.

The assessments were conducted and independently verified to award the selected facilities of Camso Loadstar with the ISO 14064-1 Certification by The Sustainable Future Group.
